FIXED/CARRIER/VEGETABLE OIL

SHEET 3 OF 4

Stability and Reactivity

Reactivity presents no significant reactivity hazard, this is either by its self or in contact with water.

Decomposition Carbon Monoxide and unidentified organic compounds may be formed during combustion.

Toxicology Information

Based on the ingredients in this composition and their concentrations. This product according to the conventional method of EEC Directive 88/379/EEC Classified as SAFE when used as directed. Not for consumption unless specified.

Ecological Information

General This material is unlikely to accumulate in the environment and environmental problems under normal use conditions are unexpected.

Disposal Considerations

Disposal: Dispose of according to local regulations. Avoid disposing into the drainage system or into the environment.

Transport Information

Road: CDGRRNO HAZARD RISKS

Air: IATA NO HAZARD RISKS

Sea: IMDGNO HAZARD RISKS

Regulatory Information

Classification Packaging / Labeling (Directive 88/379/EEC)

Other Information

CONC.% LIMITS*****These are the maximum percent concentrations that this material can be used in non-hazardous product without the indicated risk being applicable to that product.
